

Welcome to Gleason Orthodontics

We are so happy to have you here at Gleason Orthodontics! This is the first day of a lasting relationship that will feel more like family than doctor-patient. Here at Gleason Orthodontics, we treat all of our patients, and the people they bring with them, like they are our best friends. You will find an ample amount of personal time with Dr. Gleason as well as each member of his team. You and your loved ones will not be just another set of teeth to us; in fact, even if we see you out of the office we will know who you are by name!

There are many special things you can look forward to as you start treatment with us. Your visit here will show you what sets us apart and why we will be the best fit for you.

Ample time with Dr. Gleason: He will not only give you the greatest dental care possible, but he will also give you his time and interest. He truly loves spending time with all of his patients and he can't wait to add you to his list of friends.

High-tech treatment: Our office offers digital charting for secure, up to date information at easy access to you and Dr. Gleason. We also take digital x-rays for increased accuracy, image quality, and decreased radiation exposure. We can easily share these images with your dentist for quality care!

Variety of treatment options: Dr. Gleason and his staff are experts at working with many different appliances to treat many different cases. We offer traditional braces, self-ligating (Damon) braces, clear braces, and Invisalign. This array of treatment options ensures you will find the best option to fit your lifestyle.

Range of payment options: We pride ourselves in offering options to our patients, and financial arrangements are no different. We have a range of payment options from discounted payment options to no interest payment plans. With all the possibilities, you are sure to find one that fits your needs.

Excellence and efficiency: Dr. Gleason is a perfectionist when it comes to your treatment results. He will make sure you have the exact smile you want and deserve. He has trained his staff to have the same attitude when it comes to your treatment. This excellence in no way detracts from being efficient however. Appointments are scheduled to minimize waiting time while still giving you ample time with both the doctor and his staff. Dr. Gleason's staff has been trained to efficiently assist with treatment so you can get back to your schedule as soon as possible.

Keeping you informed: You will be given a progress update at every appointment. Still have questions? Ask any staff member your questions in person, via email, or over the phone; we are happy to answer them. If the staff member cannot answer your question, they will find someone who can.

Just as no two people are the same, no two courses of treatment are the same. At Gleason Orthodontics we will treat you as an individual and give you the superior, personalized care you deserve. It is our goal to provide you with the highest quality orthodontic treatment in a comfortable and friendly environment. We are happy to have you here with us today and are looking forward to getting to know you better over the course of your treatment.

Sincerely,

Dr. Gleason and Staff
